INDUSTRY EXPERIENCE:

FULL-STACK DEVELOPER | Jung Talents

June 2022 – January 2024

- Engaged in the end-to-end development of dynamic web applications, leveraging a comprehensive tech stack including React, Redux, NodeJS, Express, NestJS, Typescript, NextJS MongoDB, and PostgreSQL.
- Enhanced authentication and Role-Based Access Control (RBAC) authorization process using JWT tokens with HttpOnly Cookie and Session Storage.
- Collaborated with cross-functional teams to design and implement RESTful APIs using NestJS, fostering a streamlined and cohesive development process.
- Communicate proactively with Business Analysts and other team members to ensure an understanding of client requirements.
- Conducted thorough code reviews, providing constructive feedback to team members.
- Implemented Agile methodologies to drive continuous improvement, ensuring the delivery of high-quality software within specified timelines.
- Maintained a keen focus on staying abreast of industry trends and emerging technologies, facilitating the integration and migration of the project development process between Express and NestJS.

FULL-STACK DEVELOPER | Partners In Planning

February 2022 – June 2022

- Engaged in the end-to-end development of dynamic web applications, leveraging a comprehensive tech stack including React, Redux, NodeJS, Express, and MySQL.
- Worked seamlessly with Business Analysts to conduct comprehensive user interviews and requirement-gathering sessions, which reduced the development time by approximately 30% and ensured a thorough understanding of user needs and project objectives.
- Translated gathered requirements into clear and concise user stories, which provide a clear vision of the application requirement to the development team.
- Demonstrated a commitment to delivering products that align with user needs by actively participating in sprint planning, backlog grooming, and sprint review sessions.

PROJECTS:

- **Advice Cyborg:** An automated online platform that provides tailored financial advice to individuals facing various financial situations.
- **PTE Master:** An automated online learning system that integrated AI technology, providing students with a comprehensive platform for improving their English skill in preparation for their PTE test.
- **Compare Save:** An online platform that allows users to compare 100s of home loans and investment loans from Australia's most trusted lenders.
- **HIASE Coffee Shop:** A coffee shop online platform designed for both visitors and staff to make and manage bookings, share coffee recipes, and manage user data with appropriate authenticated and authorised users.
