

HONG KIEN NGUYEN (BILL)

SOFTWARE ENGINEER | FULL-STACK PRODUCT DELIVERY

Melbourne, VIC | +61 452 160 479 | nguyenhongkien26@gmail.com | [LinkedIn](#)

Portfolio: 2604kien.github.io | GitHub: github.com/2604kien

PROFILE

Full-stack software engineer with a JavaScript/TypeScript background and hands-on experience building React applications, Node.js services and AWS solutions. Works directly with the CTO and business stakeholders to gather requirements, plan implementations and deliver operational software. Built a driver-reporting application saving over A\$100,000 annually in software licence costs.

PROFESSIONAL EXPERIENCE

Software Engineer | The Fruit Box Group

Jun 2024 – Present

Report directly to the CTO, delivering e-commerce features, integrations and internal operational applications.

- Built and delivered Driver Check using React, Node.js (Express), AWS Lambda and DynamoDB, saving over A\$100,000 annually in software licence costs and enabling drivers to create, edit and synchronise HACCP reports with NetSuite.
- Translate cross-department requirements into technical plans, working with Customer Service and Marketing to deliver promotional campaigns, e-commerce enhancements and data-driven features.
- Design, develop and maintain integrations between Adobe Commerce (Magento 2) and NetSuite ERP, supporting order, customer and transaction synchronisation.
- Delivered product catalogue automation across Adobe Commerce and WordPress, covering product categories and NetSuite price-tier mapping.
- Resolve defects, optimise existing PHP/Magento 2 code and implement feature enhancements following version control workflows.

Software Developer | Partners in Planning – Australia

Feb 2022 – Jun 2022

- Worked with Business Analysts on user interviews and requirements gathering; translated findings into user stories for the development team.
- Developed full-stack financial web applications using JavaScript, PHP and CakePHP, including a financial chatbot and debt, insurance and interest-rate calculators.
- Prepared user and technical documentation and collaborated with QA to support software quality.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, C#

Front end: React, Next.js, Redux Toolkit, HTML, CSS, Tailwind CSS

Back end: Node.js, Express, Nest.js, Adobe Commerce / Magento 2, CakePHP, ASP.NET Core

Databases: PostgreSQL, MySQL, DynamoDB, MongoDB, Microsoft SQL Server

Cloud & delivery: AWS (Lambda, EC2, ECS, S3, RDS, CloudFront), Docker, Git

Integrations & monitoring: NetSuite ERP, Celigo, WordPress, Sentry, New Relic

EDUCATION

Monash University

May 2019 – Sep 2023

Bachelor of Information Technology — Software Development and Web Development

Bachelor of Business — Accounting
